

$$\vec{A} - \vec{B}$$

Tarea 1:

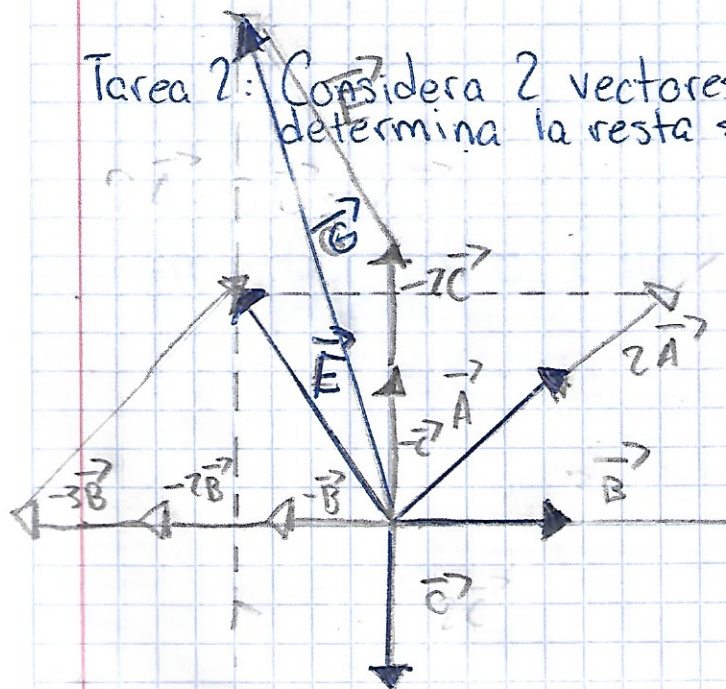

$$\vec{A} = (8, 5)$$

$$\vec{B} = (-6, 6)$$

$$\begin{aligned}\vec{A} - \vec{B} &= (8 - (-6), 5 - 6) \\ &= (14, -1)\end{aligned}$$

Tarea 2: Considera 2 vectores dados gráficamente determina la resta siguiente gráficamente

$$\begin{aligned}2\vec{A} - 3\vec{B} &= \vec{E} \\ \vec{F} - 2\vec{C} &= \vec{G}\end{aligned}$$
